Quick Reference Guide

New Games Coming to the Fast Play Portfolio

On Thursday, December 10, 2026, we are launching three new fixed top-prize Fast Play games that do not contribute to the progressive jackpot. These games give players additional opportunities for instant cash wins. The new offerings include a **$2 Full of $100s** and a **$10 Full of $500s**, which complement the existing and best-selling **$5 Full of $250s** that has been in market since April 2024. We are also introducing a **$20 Cash Eruption** ticket, where players have the chance to win up to $2,000, with prizes starting at $100.

Launching January 7, 2027: the new **X the Money** family in $5, $10, and $20 price points, plus Scratch-off and Instant Play will also have a version of the game.

Players can win a portion—or all—of the rolling jackpot. The $20 ticket gives players 100% of the jackpot + $250,000.

Launching February 11, 2027: the **$2 Yahtzee™** Fast Play game, offering players a chance to win **20% of the rolling jackpot**.

Both **X the Money** and **Yahtzee™** provide instant win opportunities and jackpot eligibility based on the ticket price.
