

Quick Reference Guide

Game Enhancements are Launching April 5th!

Enhancements are coming to the Mega Millions draw game on Saturday, April 5, 2025. A new price point of \$5 with larger jackpots and secondary prizes, PLUS a built-in Multiplier feature. First drawing of the game enhancements is Tuesday, April 8, 2025.

Overview of Changes:

- The price point is increasing from \$2 per play to **\$5 per play**.
- The matrix on the mega ball is changing **from 1/25 to 1/24**.
- The jackpot odds have improved from 1 in 303 million to **1 in 290 million**.
- The starting jackpot amount is increasing from \$20 million to **\$50 million**, which means faster-growing jackpots.
- The average jackpot win is increased by 75% with the new starting amount of \$50 million.
- **Megaplier and Just the Jackpot will no longer be available for purchase.**

Built-In Multiplier:

There is now a built-in multiplier feature included in the price of a single \$5 play. An individual multiplier (2x, 3x, 4x, 5x or 10X) will be randomly assigned per play at the time of purchase based on the weighted frequency for each multiplier set forth in the game rules. **Players can win a minimum of \$10 and up to \$10 million on non-jackpot prizes.** With the new embedded multiplier, Match 5 prizes will range from \$2 million up to \$10 million. The prize for matching the Mega Ball alone will increase to \$10 up to \$50, depending on the multiplier value randomly selected. **Minimum prize is 2x the price of a play!**

NEW BUILT IN MULTIPLIER FEATURE REPLACES MEGAPIER

Multiplier	Odds
10X	32.00
5X	16.00
4X	8.00
3X	3.20
2X	2.13
Avg. Mult	3.00

How To Play

Each Mega Millions play costs \$5. Players can choose five white balls (1-70) and one Mega Ball (1-24) or select Quick Pick to let the computer randomly select their numbers. Choose the number of drawings to play.
