REVEAL I.D. ky-professor-payout
VERSION 1 - EFFECTIVE DATE: JUNE 21, 2024

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased **\$0.10, \$0.20, \$0.50, \$1.00, \$2.00, \$5.00, \$10.00, \$20.00, \$30.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

Win up to \$150,000!

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

At the start of the game, Professor Payout displays fifteen (15) blocks in a 5x3 grid, five (5) game symbols in a top row above the grid, five (5) game symbols in the row below the grid, a Prize Chart button, and a BUY button. The game symbols in the top and bottom rows outside the grid can be Instant Prizes, Wilds or Multiplier Wilds Symbols.

By selecting BUY, the symbols will fall into place on the grid. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the payable is won. A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid. Symbols cannot be connected diagonally to form a cluster.

If the additional blocks added lead to a new winning cluster, the game continues until no winning clusters are present.

Reveal a special Professor Symbol to pull the Instant Prizes, Wilds or Multiplier Wilds Symbols from the top and bottom rows onto the grid.

Reveal three (3) Bonus Symbols anywhere on the grid to activate the Bonus Game.

Special Professor Symbol

If a Professor Symbol appears on the grid, the symbol will activate and display an arrow. The arrow will either point up or down. If the arrow points up, it will select an Instant Prize, Wild or Multiplier Wild Symbol from the top row above the grid. If the arrow points down it will select an Instant Prize, Wild or Multiplier Wild Symbol from the bottom row below the grid. When selected:

- Instant Prize Symbol - if selected, that prize amount is awarded.
- Wild Symbol- if selected, the Wild Symbol acts as a substitute for all game symbols except the Free Games Symbol, Bonus Symbol and the Special Professor Symbol. For example, revealing a Wild Symbol directly above, below, or to the left or right of a cluster of three (3) electric orb symbols creates a four (4) electric orb symbol winning cluster. Wild Symbols must be part of a winning cluster in order to be counted.
- Multiplier Wild - if selected, the Multiplier Wild Symbol functions the same as a Wild Symbol except that a Multiplier Wild Symbol displays a multiplier amount and, multiplies the win amount for any winning clusters of which the Multiplier Wild Symbol is a part by the Multiplier amount. The Multiplier Wild is only applied to winning clusters of which it is a part, not any other wins during that play round.

Bonus Game

Reveal three (3) Bonus Symbols to trigger the Bonus Game. At the start of the Bonus Game, the game displays a (5) five row block tower (26 total blocks) and a Go button. Each block contains an arrow, Free Games, or Multiplier Symbol. To begin the Bonus Game, the player must select Go and the blocks on the bottom row of the tower will highlight in turn. When the highlight stops and settles on a block, the symbol in that block will stay highlighted and that symbol on the block will enlarge. The symbol in the highlighted block will determine the outcome:

- If an Up Arrow Symbol is highlighted, the Bonus Game continues and blocks in the row immediately above will highlight in turn.
- If a Multiplier Symbol is highlighted - the multiplier amount displayed is applied to the ticket cost amount and awarded to the player. The Bonus Game ends.
- If a Free Games Symbol is highlighted – The player is awarded the number of Free Games displayed, the Bonus Game ends, and the player returns to the Base Game where the awarded number of Free Games will play out.

Free Games

Free Games can only be triggered in the Bonus game. However, Players can trigger more than one Bonus Game in the Main Game which may trigger additional Free Games rounds.

The game ends when all symbols are revealed, and any triggered Free Game and Bonus Games are completed.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
