

KENTUCKY LOTTERY CORPORATION
iLOTTERY INSTANT PLAY GAME RULES
“CATS JACKPOT”
– \$0.50, \$1, \$2, \$3, \$5, \$10, \$20, \$30, \$50
REVEAL I.D. NO. 5012
VERSION 1 - EFFECTIVE DATE: June 13, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.50, \$1, \$2, \$3, \$5, \$10, \$20, \$30, \$50** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

Cats Jackpot is an Instant Play game that participates in a Progressive Jackpot, as set forth in the rules and regulations for each participating Progressive Jackpot Instant Play game. Not all Progressive Jackpot Instant Play games participate in the same Progressive Jackpot. Two percent (2%) of the sales from each participating Progressive Jackpot Instant Play game will be rolled into the single Progressive Jackpot with the other games participating in that Progressive Jackpot.

The object of Cats Jackpot is to collect three (3) or more matching, adjacent symbols (a “winning cluster”) to win a prize, or reveal Paw Symbols anywhere on the grid to trigger the Free Turns Bonus or to win the Progressive Jackpot.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

At the start of the game, Cats Jackpot displays a 3x5 grid filled with different symbols, and the Progressive Jackpot amount. When a ticket is purchased and the PLAY button is pressed, symbols fall into place on the grid.

When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), the corresponding prize in the prize table (in the drop-down menu button) is won. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award the corresponding prizes, and are removed from the grid. All non-winning symbols remain in place until no winning clusters are present on the grid.

A Wild Symbol may appear anywhere in the grid and transform to match any symbol, enhancing a winning cluster by adding a matching symbol for a greater win, or creating a winning cluster.

Split Symbols

When there are two (2) Paw or Cat Symbols in a single square on the grid, this is considered a Split Symbol. Split Symbols count as two (2) symbols in one play spot to create winning clusters or trigger the Free Turns Bonus quicker.

Paw Symbols – Free Turns Bonus

Paw Symbols can appear as a Single or Split Symbol, anywhere on the grid, and do not need to form a winning cluster for the Free Turns Bonus to be triggered. Reveal four (4) or five (5) Paw Symbols on the same grid to trigger a Free Turns Bonus. The number of Paw Symbols (4 or 5) on the grid determines the number of Turns awarded during the Free Turns Bonus, as detailed below:

- Four (4) Paw Symbols awards five (5) Free Turns
- Five (5) Paw Symbols awards ten (10) Free Turns

Paw Symbols only appear in the main game and not during the Free Turns Bonus.

Paws Symbols - Progressive Jackpot

The Progressive Jackpot is the top prize amount and can only be won by revealing six (6) Paw Symbols during the main game. The Progressive Jackpot cannot be won during the Free Turns Bonus.

If a Progressive Jackpot win occurs, the game ends.

Free Turns Bonus

The Free Turns Bonus is triggered when four (4) or five (5) Paw Symbols appear on the grid.

- The Free Turns Bonus contains a Multiplier Meter that matches the amount of Free Turns awarded:
 - For five (5) Free Turns, the multiplier climbs one (1) time each turn, up to 5x on the meter.
 - For ten (10) Free Turns, the multiplier climbs one (1) time each turn, up to 10x on the meter.

Game play in the Free Turns Bonus is like the main game where each turn may create winning clusters. During each Free Turn, any winning cluster prize amounts won are multiplied by the associated multiplier amount for that turn. The multiplier moves up one (1) space and increases by one (1) on each turn. If there are no winning cluster prize amounts won during a turn, no multiplier is applied.

When all Free Turns are completed, the Free Turns Bonus ends, and all Free Turns Bonus wins are awarded in addition to any wins from the main game.

The game ends when no more winning clusters are formed in the main game and when all turns have completed in the Free Turns Bonus, or when the Progressive Jackpot is awarded during the main game.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
