REVEAL I.D. ky-king-arthur
VERSION 1 - EFFECTIVE DATE: MARCH 29, 2024

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased **\$0.10, \$0.20, \$0.50, \$1.00, \$2.00, \$5.00, \$10.00, \$20.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

At the start of the game, King Arthur displays twenty (20) blocks in a 5x4 grid, a Prize Chart button, Major and Minor prize panels, and a BUY button. By selecting BUY, the symbols will fall into place on the grid. Find a winning pattern of three (3) or more identical symbols connected in the grid by sharing a side (a “winning cluster”), win the corresponding prize in the Prize Chart!

Each time a winning cluster is displayed, those blocks will be destroyed and new blocks with symbols will fall into place from above. If the additional blocks added lead to a new winning cluster, the game continues until no winning clusters are present.

Reveal a “Free Games” symbol for additional chances to play the Main Game.

The ticket purchase price determines the value of the MAJOR and MINOR prize amounts.

Win All Feature

Reveal a “Win All” symbol to create wins outside of winning clusters. When a Win All symbol appears in the grid, it will transform into one of the Main Game symbols (excluding "Free Games" or "Bonus" symbols) to create winning clusters. Win All Symbols can substitute for any of the Main Game symbols and do not have to be part of a cluster to be counted towards the prize amount. Once a Win All symbol has entered the grid and transformed into a Main Game symbol, that symbol will be collected, and counted towards the prize amount for the corresponding winning pattern. For example, if the Win All symbol turns into a Gold Chest symbol and there are already three (3) Gold Chest symbols on the grid, increasing the total to four (4) Gold Chest symbols, the prize amount associated with a four (4) Gold Chest winning cluster pattern will be awarded.

Once the Win All Symbol has changed into a Main Game symbol, any of that type of Main Game symbol will be collected and awarded a corresponding win even if not part of a winning cluster.

Free Games

Reveal a “Free Games” symbol on the grid to activate ten (10) free plays of the Main Game. The Free Games ends when no new winning clusters remain on the grid, and all awarded Free Games have been played.

At the end of the Free Games, any winnings from the Main game and Free Games are displayed in the Total Wins panel.

Bonus Game

Reveal a “Bonus” symbol to trigger the Bonus Game. To begin the Bonus Game, the player must select Go. The game begins with five (5) drops on the drop counter.

At the start of the Bonus Game, the game displays a Prize Chart button, MAJOR and MINOR prizes, a total win panel, and a wheel that is divided into twelve (12) wedges with three (3) play spots per wedge.

Once the game begins, a pile of coins and jewels is revealed in the center of the wheel and jewel symbols populate the wedges beginning with the outer most ring.

During the Bonus Game, symbols will move into the spots on the wedges. The purpose of the Bonus Game is to create winning clusters by matching the game symbols to the symbols displayed in the play spot on the wheel.

A “Winning Cluster” is created if three (3) or more identical symbols are connected in the wedge by sharing a side. Each time a Winning Cluster is revealed, a prize amount is added to the Total Wins amount. The prizes that each Winning Cluster correspond to is shown on the Prize Chart before the Bonus Game starts.

Each time a Winning Cluster is displayed, those spots will be destroyed, and new symbols will move into place. If the new symbols that get added lead to a new Winning Cluster, the process continues until no Winning Clusters are present. Once no Winning Clusters are present, the Go ends.

If the player reveals three (3) Diamond symbols during the Bonus Game, the MINOR prize amount is awarded and the game ends immediately.

If the player reveals three (3) Crown symbols during the Bonus Game, the MAJOR prize amount is awarded and the game ends immediately.

The Bonus Game ends when the five (5) drops are played out or three (3) Crown Symbols, or three (3) Diamond Symbols are revealed.

Once the Bonus Game ends, any win amounts are awarded and added to the total win panel.

The game ends when there are no new winning clusters on the grid and all triggered Free Games and Bonus Games have been completed.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
