

KENTUCKY LOTTERY CORPORATION
iLOTTERY INSTANT PLAY GAME RULES
“LUCKY POPS”
– \$0.10, \$0.20, \$0.50, \$1, \$2, \$3, \$5, \$10, \$20, \$30 –
REVEAL I.D. NO. 6479
VERSION 1 - EFFECTIVE DATE: NOVEMBER 20, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.10, \$0.20, \$0.50, \$1.00, \$2.00, \$3.00, \$5.00, \$10.00, \$20.00, or \$30.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

The object of Lucky Pops is to pop bubbles to receive instant wins, reveal Multipliers, trigger the Bonus Game, and fill Symbol Segments to win a prize.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase. The popping of bubbles is for entertainment purposes only and does not have an impact on prizes won.

At the start of the game, Lucky Pops displays a grid with three (3) rows and three (3) columns, and a Bonus Meter. The grid contains nine (9) winning symbols each of which have five (5), four (4), three (3), or two (2) segments, and associated win amounts. The winning symbols are a mixture of Collectable Symbols. When the PLAY button is selected, bubbles float up the screen and twelve (12) pops are awarded. Bubbles can be popped manually by clicking on individual bubbles, or automatically popped by clicking on the DOUBLE PLAY button. The DOUBLE PLAY button appears in place of the PLAY button once gameplay begins and has two (2) arrows.

Popping a bubble reveals Collectable Symbols. If a revealed Collectable Symbol matches a winning symbol on the grid, the Collectable Symbol fills one (1) Symbol Segment for the winning symbol on the grid. The win amount associated with a Collectable Symbol on the grid is awarded when all segments are filled for that Collectable Symbol. When all segments are full for a Collectable Symbol, the win amount turns gold and remains on the grid as remaining bubbles pop.

Bubbles may contain up to three (3) symbols when popped. Multiplier Symbols of 2x, 3x, 5x, and 10x may appear with Collectable Symbols when a bubble is popped and multiply the win amount

associated with the matching winning symbol on the grid. Additionally, bubbles may reveal Coin Symbols which award Instant Win prizes, +1 Symbols which award extra pops, and Bonus Symbols which are added to the Bonus Meter and trigger the Bonus Game when three (3) are collected.

Multipliers can also multiply Instant Win amounts.

Bonus Game

The Bonus Game is triggered when three (3) Bonus Symbols are revealed from popping bubbles and fill the Bonus Meter in the Main Game. The Bonus Game begins once all the pops are complete in the Main Game.

At the start of the Bonus Game bubbles are floating up the screen and there is a Multiplier Counter that begins at 1x and increases as Multipliers are revealed when popping bubbles and added. When the bubbles are popped, they will always reveal an Instant Win amount or a Multiplier. Available Multiplier values in the Bonus Game are 2x, 3x, 4x, 5x, 10x, 20x, 25x, 50x, and 100x.

The Bonus Game will always consist of between five (5) and twelve (12) symbols being collected. It ends when “Collect” is revealed on the screen. The bonus prize awarded is the sum of the Instant Win amounts multiplied by the final Multiplier value.

The game ends when all bubbles have popped and any triggered Bonus Game has completed.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.

PRICE: \$0.10
