

KENTUCKY LOTTERY CORPORATION
iLOTTERY INSTANT PLAY GAME RULES
“POWERMAX CASH”
–\$0.50, \$1, \$2, \$5, \$10, \$20, \$30, \$50 –
REVEAL I.D. NO. 0056
VERSION 1 - EFFECTIVE DATE: SEPTEMBER 18, 2026

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.50, \$1.00, \$2.00, \$5.00, \$10.00, \$20.00, \$30.00, or \$50.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

PowerMax Cash is an Instant Play game that participates in a Multistate Progressive jackpot. Not all Progressive Jackpot Instant Play games participate in the same Progressive Jackpot. Rocket Jackpots are funded through the sale of linked games that are sold by the participating lotteries. Plays of those games have an equal chance by price point to win a progressive jackpot prize.

3.0% of the sales from each participating Progressive Jackpot Instant Play game will be rolled into the Progressive Jackpot with the other games participating in that Progressive Jackpot. 1.35% is contributed to the Power Jackpot Prize and 1.35% is contributed to the Boost Jackpot Prize. An additional 0.30% of each purchase in the PowerMax Cash game is contributed to fund the starting Progressive jackpot values.

	Base Jackpot Starts at:	Sales Contribution Percentage:
Jackpot 1 (Power)	\$225,000	1.35%
Jackpot 2 (Boost)	\$225,000	1.35%

PowerMax Cash has two (2) modes of play: Standard Mode and Power Boost Mode. Power Boost Mode is only available between 7:00 PM EST – 11:59:59 PM EST everyday.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

In Standard Mode, the game features a 4x5 (20 block symbols) grid of symbols. Standard mode is available from 12:00:00AM - 6:59:59PM EST.

In Power Boost Mode, the game also features a 4x5 (20 block symbols) grid of symbols. Power Boost Mode is available in these time frames: 7:00 PM EST – 11:59:59 PM EST. It is possible to win the top prize from the combined progressive jackpot pools (starting at \$450,000) at all price points in Power Boost Mode as set forth in the Prize Structure and Odds below.

Each mode will display a Power Boost countdown that shows the time until Power Boost Mode is unlocked. Once unlocked, a message will pop-up in the game grid that says “Power Boost Mode Activated - Jackpots are now combined”. Once in Power Boost Mode, the countdown will show the time left in that mode. When the countdown reaches zero, a message will pop-up in the game grid that says, “Power boost ended.”

STANDARD MODE:

At the start of the game, PowerMax Cash displays twenty (20) block symbols in a 4x5 grid, a Prize Chart, a BUY button and a Countdown to Power Boost section. In Standard Mode, the Top Prizes of the two progressive jackpot pools (each of which start at \$225,000) are available to win.

By selecting the BUY button, the symbols will cascade down to fill the grid. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the Prize Chart is won.

A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

If the additional symbols added lead to a new winning cluster, the game continues until no winning clusters are present. Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the game ends and the total win is awarded to the player.

If the Power Boost timer reaches zero in the game, but the game round has not started, a pop-up will appear to show that the game mode has switched to Power Boost Mode. If the Power Boost timer reaches zero in the game after a ticket has been purchased, but the game round has not ended, a pop-up will appear and the game mode will switch to Power Boost Mode once that game round ends.

POWER BOOST MODE:

In Power Boost Mode, the game displays a 4x5 (20 block symbols) grid of symbols and activates the Power Boost Jackpot. Power Boost Mode is only available from 7:00:00PM EST to 11:59:59AM EST.

By selecting the BUY button, the symbols in the grid will cascade down. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the Prize Chart is won.

A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the game ends and the total win is awarded to the player.

If the Power Boost timer reaches zero in the game, but the game round has not started, a pop-up will appear to show that the game mode has switched to Standard Mode.

If the Power Boost timer reaches zero in the game after a ticket has been purchased, but the game round has not ended, a pop-up will appear and the game mode will switch to Standard Mode once the game round ends.

Feature Descriptions

Standard Wilds

The WILD Symbol substitutes for all symbols except the Free Games, Power and Boost Symbols. For example, revealing a Wild symbol directly above, below, or to the left or right of a cluster of three (3) ‘wallet’ symbols creates a four (4) ‘wallet’ symbol win. Wild Symbols must be part of a winning pattern cluster to be applied.

Multiplier Wilds

MULTIPLIER WILDS function in the same way as Standard Wilds except they have a multiplier amount on them. Any winning cluster that includes a Multiplier Wild is multiplied by the Multiplier amount. Multiplier Wilds may appear as 2X, 3X, 5X and 10X.

Instant Win

If an INSTANT WIN symbol is revealed in the grid, it will animate to reveal an INSTANT PRIZE amount, which is then awarded.

Big symbols

During play, a 2x2 or 3x3 BIG version of a regular game symbol may appear anywhere in the grid. The BIG symbols count as four (4) or nine (9) game symbols and can contribute to the creation of

winning clusters. If the new symbols or BIG symbols that get added lead to a new winning cluster, the game will continue until no winning clusters are present and any Bonus Game awarded is completed.

Re-Drop

Reveal a RE-DROP to reset the board and trigger a new drop of symbols. The existing symbols in the game grid will be removed, and a new set of symbols will drop in.

Free Games

Find three (3) FREE GAMES symbols to unlock ten (10) free games.

Power Jackpot Bonus Game

Reveal three (3) POWER symbols to unlock the POWER JACKPOT Bonus Game. Press PLAY to launch the rocket. As the rocket flies through space, it collects coins. Each coin is worth one (1) point. The Points Table above the rocket shows the number of points collected and the multiplier that corresponds to each number of points. The points collected are highlighted on the Points Table with a corresponding multiplier as shown. When the rocket explodes, the TICKET COST is multiplied by that multiplier amount. That prize is awarded and the game ends.

If when the rocket explodes, the player has collected 200 points, the POWER JACKPOT row on the Points Table is highlighted and the player is awarded the POWER JACKPOT only. The Bonus Game then ends.

The player is only awarded the prize that is highlighted in the Points Table.

Multipliers won in the POWER JACKPOT Bonus Game are not applied to the Main Game. Multipliers won in the main game are not applied to prizes won in the POWER JACKPOT Bonus Game.

Boost Jackpot Bonus Game

Reveal three (3) BOOST symbols to unlock the BOOST JACKPOT Bonus Game. Press PLAY to launch the rocket. As the rocket flies through space, it collects coins. Each coin is worth one (1) point. The Points Table above the rocket shows the number of points collected and the multiplier that corresponds to each number of points. When the rocket explodes, the number of points collected is converted to a multiplier as shown on the Points Table.

The points collected are highlighted on the Points Table with a corresponding multiplier shown. When the rocket explodes the TICKET COST is multiplied by that multiplier amount. That prize is awarded and the Bonus Game ends.

If when the rocket explodes, the player has collected 200 points, the BOOST JACKPOT row on the Points Table is highlighted and the player is awarded the BOOST JACKPOT only. The Bonus Game then ends.

The player is only awarded the prize that is highlighted in the Points Table.

Multipliers won in the BOOST JACKPOT Bonus Game are not applied to the Main Game. Multipliers won in the main game are not applied to prizes won in the BOOST JACKPOT Bonus Game.

Power Boost Jackpot Bonus Game

Reveal three (3) POWER symbols when the game is in Power Boost Mode to unlock the POWER BOOST JACKPOT Bonus Game. Press PLAY to launch the rocket. As the rocket flies through space, it collects coins. Each coin is worth one (1) point. The Points Table above the rocket shows the number of points collected and the multiplier that corresponds to each number of points. When the rocket explodes, the number of points collected is converted to a multiplier as shown on the Points Table.

The points collected are highlighted on the Points Table with a corresponding multiplier shown. When the rocket explodes the TICKET COST is multiplied by that multiplier amount. That prize is awarded and the game ends.

If when the rocket explodes, the player has collected 200 points, the POWER BOOST JACKPOT row on the Points Table is highlighted and the player is awarded the POWER BOOST JACKPOT only. The Bonus Game then ends.

The player is only awarded the one prize that is highlighted in the Points Table.

Multipliers won in the POWER BOOST JACKPOT Bonus Game are not applied to the Main Game. Multipliers won in the main game are not applied to prizes won in the POWER BOOST JACKPOT Bonus Game.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.

PRICE: \$0.50
