REVEAL I.D. NO. 3738

VERSION 1 - EFFECTIVE DATE: NOVEMBER 20, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.50, \$1.00, \$2.00, \$5.00, \$10.00, \$20.00, \$30.00, or \$50.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

The Lamp is an Instant Play game that participates in several Progressive Jackpots, as set forth in the rules and regulations for each participating Progressive Jackpots Instant Play game. Not all Progressive Jackpot Instant Play games participate in the same Progressive Jackpot.

2.0% of the sales from each participating Progressive Jackpot Instant Play game will be rolled into the Progressive Jackpot with the other games participating in that Progressive Jackpot. 0.984% is contributed to the Gold Jackpot Prize, 0.210% is contributed to the silver Jackpot Prize, and 0.060% is contributed to the Bronze Jackpot Prize. An additional 0.746% of each purchase is contributed to fund the starting Progressive Jackpot values.

	Base Jackpot Starts at:	Sales Contribution Percentage:
Jackpot 1 (Gold)	\$100,000.00	0.984%
Jackpot 2 (Silver)	\$5,000.00	0.210%
Jackpot 3 (Bronze)	\$500.00	0.060%

The object of The Lamp is to collect clusters of three (3) or more matching, adjacent Cluster symbols (“winning clusters”), three (3) Free Games symbols, and/or three (3) Jackpot Bonus symbols to trigger the Bonus game where the player could win the corresponding Gold, Silver, or Bronze Progressive Jackpot amounts.

At the start of the game, The Lamp displays a 3x5 symbol grid containing fifteen (15) play spots, a Jackpot space with three (3) Jackpot values labeled Gold, Silver, and Bronze, a Total Wins

display, an “i” button, a ticket price selector, and a Play button. Selecting the “i” button shows game-play instructions and the Prize Table showing the prize values associated with collecting a cluster of at least three (3) identical Cluster symbols.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

When the player selects the PLAY button. The game automatically begins play by dropping in a new symbol for each spot on the grid. Five (5) different types of symbols may populate the grid:

- Cluster symbols, which are eligible to form clusters and include the book, hat, carpet, club, diamond, spade and heart symbols.
- Big Cluster symbols, which follow the same rules as Cluster symbols, but are 2x2 in size and count as four (4) of the same Cluster symbol.
- Multipliers, which multiply the cluster prize value by the multiplier value shown, which include 2x, 3x, 4x, 5x, 10x, 20x, and 50x.
- Free Games symbols, which activate the Free Games round when three (3) appear on the screen simultaneously.
- Jackpot Bonus symbols, which activate the Jackpot Bonus Game when three (3) appear on the screen simultaneously.

If the grid contains a cluster of three (3) or more matching symbols, the game collects the clustered symbols, removes them from the grid, and awards the corresponding prize value, which is expressed as a multiple of the ticket price the player paid for the game. A cluster is defined as a group of at least three (3) grid cells in which each of the cells shares a side with another cell containing the same symbol. For example, three (3) of the same symbol directly next to each other horizontally or vertically would be considered a cluster; three (3) of the same symbol that are positioned diagonally from each other, that is, not sharing a side—would not be considered a cluster.

A Big Cluster symbol may drop down into the grid. A Big symbol will be 2x2 grid cells in size. New symbols will drop down to fill the empty grid cells around the Big symbol. The Big symbol will then transform into four (4) of the same Cluster symbol, which will form their own cluster or combine with other Cluster symbols on the grid to form a larger cluster.

After all symbol clusters on the grid have been collected and removed, new symbols drop down to replace them on the grid. If new clusters are formed, they are collected and removed, and the player earns the corresponding prize value. This process continues until no new clusters form. The prizes won from collected clusters accumulate in the Total Wins counter.

If the player reveals one (1) or more Multiplier symbols on the grid along with one (1) or more symbol clusters, all cluster wins will be multiplied by the sum of the multiplier values shown. For

example, if three (3) Multiplier symbols with the values X3, X4, and X10 appear on the grid along with a cluster with a prize value of \$10, the player will win \$10 multiplied by 17, or \$170. After the multiplier value appears below the grid next to the total cluster win amount, it will be applied to the cluster win amount, and the multiplied value will be shown.

The Multiplier does not apply to prizes won in the Jackpot Bonus Game.

If the player reveals three (3) Free Games symbols on the grid simultaneously, the player will advance to the Free Games round.

If the player reveals three (3) Jackpot Bonus symbols on the grid simultaneously, the player will advance to the Jackpot Bonus Game.

Free Games

The Free Games round is played on a 3x5 fifteen (15) spot symbol grid almost identical to the Main Game grid. The round begins automatically, and the player receives ten (10) Free Games.

As in the Main Game, the player wins by collecting clusters of three (3) or more Cluster symbols. If the player reveals one (1) or more Multiplier symbols on the grid along with one (1) or more symbol clusters, all cluster wins accumulated during that game will be multiplied by the sum of the multiplier values shown.

The Free Games and Jackpot Bonus symbols do not appear during the Free Games round.

After all Free Games are played, the player wins the prize total amount displayed in the Total Wins counter.

Jackpot Bonus Game

At the start of the Jackpot Bonus Game, the player is presented with a 5x3 fifteen (15) spot symbol grid with each symbol covered by a treasure chest, and a Jackpot space with three (3) Jackpot values labeled Gold, Silver, and Bronze. To begin play, the player selects a treasure chest, revealing a prize value, the name of a Jackpot, or the Wild symbol, which can substitute for any Jackpot name or prize value.

The player continues to select treasure chests until revealing three (3) identical prize values, three (3) identical Jackpot names, or a Wild symbol plus two (2) identical prize values or Jackpot names. The player wins the value corresponding to the three (3) identical prize values or Jackpot names revealed. The player does not win the sum of the three (3) identical prize values or Jackpot names. The Jackpot Bonus game outcome is predetermined, and the win amount is not influenced by the cells selected or order of cells selected by the player.

The Wild symbol can simultaneously substitute for multiple Jackpot names or prize values, enabling the player to win multiple prizes in the Jackpot Bonus Game. For example, if the player reveals two (2) \$100 prize values and two (2) \$200 prize values plus a Wild symbol, the player wins both the \$100 prize and the \$200 prize.

To complete play, the player must finish all turns in the Main Game and in the Free Games or Jackpot Bonus Game, if awarded. If the player has won a prize, a closing message appears in the game-play window indicating the total amount won and play ends.

Must be 18+ to TRY or BUY

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
