REVEAL I.D. NO. ky-vegas-showtime-jp
VERSION 1 - EFFECTIVE DATE: March 28, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.10, \$0.20, \$0.50, \$1, \$2, \$5, \$10, \$20, \$30, \$50** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

Vegas Showtime is an Instant Play game that participates in a jackpot, as set forth in the rules and regulations for each participating Jackpot Instant Play game. Not all Jackpot Instant play games participate in the same Jackpot. Two percent (2%) of the sales from each participating Jackpot Instant Play game will be rolled into the single Jackpot with the other games participating in that Jackpot.

To begin play, the player must select the ticket cost before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

The game has two (2) modes of play: Standard Mode and VIP Mode. Ticket cost determines which mode is activated.

Standard Mode is activated when ticket cost is less than \$5 per play. In Standard Mode, the Jackpot cannot be won, and ticket purchases do not contribute to the Jackpot.

VIP Mode is activated when ticket cost is \$5 or more per play. In VIP Mode, the Jackpot can be won, and ticket purchases contribute to the Jackpot.

Standard Mode:

At the start of the game in Standard Mode, Vegas Showtime displays fifteen (15) block symbols in a 3x5 grid, a Prize Chart button and a BUY button. The Jackpot is not available to win in Standard Mode.

By selecting the BUY button, the symbols in the grid will cascade down, display new symbols, and begin creating clusters. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the prize chart is won. A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

If the additional blocks added lead to a new winning cluster, the game continues until no winning clusters are present. Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the total win is awarded to the player.

VIP Mode:

At the start of the game in VIP Mode, Vegas Showtime displays fifteen (15) block symbols in a 3x5 grid, a Prize Chart button and a BUY button. The Jackpot is available to win in VIP Mode.

By selecting the BUY button, the symbols in the grid will cascade down, display new symbols, and begin creating clusters. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the prize chart is won. A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

If the additional blocks added lead to a new winning cluster, the game continues until no winning clusters are present. Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the total win is awarded to the player.

Free Games

When playing either Standard Mode or VIP Mode, reveal three (3) Free Games symbols on the same grid to be awarded ten (10) free games of the main game. The Free Games ends when no new winning clusters remain on the grid and all Free Games have been awarded.

At the end of the game, any winnings from the Main game and any Free Game are displayed in the Total Wins panel.

Standard Wilds

When playing either Standard Mode or VIP Mode, the Wild Symbol substitutes for all symbols except the "FREE GAMES" symbol and "VIP Jackpot" symbol. For example, revealing a Wild symbol directly above, below, or to the left or right of a cluster of 3 Chips symbols creates a 4 Chips symbol win. Wild Symbols must be part of a winning pattern cluster in order to be applied.

Multiplier Wilds

When playing either Standard Mode or VIP Mode, the Multiplier Wild Symbol is the same as the Standard Wild symbols except they have a corresponding multiplier value assigned to them. The corresponding Multiplier Wild value is displayed by the dealer's card. They function the same as Standard Wilds except the win amount for any winning clusters they are part of are multiplied by the corresponding Multiplier Wild value. The Multiplier Wild value is only applied to winning clusters it is part of, not any other wins during that game.

Bonus Game

When playing either Standard Mode or VIP Mode, revealing 3 VIP Jackpot Bonus Symbols on the same grid of the Main game activates the VIP Jackpot Bonus game. When playing in Standard Mode, the VIP Jackpot cannot be won and the top prize in the Bonus Round is one hundred times (100X) the wager.

The Bonus Game starts with a 3x3 grid and a prize meter. Symbols fall onto the grid. This is the first round of "Drops". Symbols that can appear are the Golden Dollar symbol or the VIP Jackpot symbol.

Any Golden Dollar symbols revealed are removed from the grid. Each time a Golden Dollar symbol is removed it fills one spot on the prize meter around the edge of the grid starting in the bottom left and filling towards the right (counterclockwise). Revealing the VIP Jackpot symbol does not result in the removal of blocks and does not result in the filling of the prize meter. When a Golden Dollar symbol is removed from the board a new symbol of either a Golden Dollar or VIP Jackpot symbol falls from above to fill its place. When the 3x3 board is full of VIP Jackpot symbols, that round of "Drops" ends and the next "Drop" starts.

The game ends after the end of the 5th round of "Drops".

Once the Bonus game has ended, the player is awarded the one prize shown as highlighted on the prize meter around the edge of the grid. The player is awarded the one single highlighted prize, and not any other prizes below the highlighted prize on the prize meter.

If the game is played in VIP Mode, there is an extra prize on the prize meter around the edge of the board. This is the VIP Jackpot.

In VIP Mode, if the player collects enough Golden Dollar symbols to highlight the VIP on the prize meter, the player is awarded the VIP JACKPOT prize amount. Only the VIP JACKPOT prize is awarded to the player.

The value of the VIP prize is shown at the top of the screen.

Any multipliers on the Main game grid are not applied to any wins in the Bonus Game.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
