

KENTUCKY LOTTERY CORPORATION
iLOTTERY INSTANT PLAY GAME RULES
“WEEKEND WINDFALL”
– \$0.50, \$1, \$2, \$5, \$10, \$20, \$30, \$50 –
REVEAL I.D. NO. 0040
VERSION 1 - EFFECTIVE DATE: NOVEMBER 20, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter “Instant Play General Rules”), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at <http://www.kylottery.com> (collectively “the Rules”).

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **\$0.50, \$1.00, \$2.00, \$5.00, \$10.00, \$20.00, \$30.00, or \$50.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

Weekend Windfall has two (2) modes of play: Standard Mode and Power Hour Mode. Power Hour Mode is only available on certain days of the week.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player’s ticket is determined at the time of the ticket purchase.

In Standard Mode, the game features a 3x5 (15 block symbols) grid of symbols and uses the Standard Mode Prize Chart.

In Power Hour Mode, the game expands to a 4x5 (20 block symbols) grid of symbols and unlocks the Power Hour Mode Prize Chart. Power Hour Mode is available in these time frames: Friday 5:00PM EST – Sunday 11:59PM EST. It is possible to win the top prize of \$1,000,000 at all price points in Power Hour Mode as set forth in the Prize Structure and Odds below.

Each mode will display a Power Hour countdown that shows the time until Power Hour is unlocked. Once unlocked, a message will pop-up on the game grid that says “Power Hour unlocked. You are now playing for the TOP PRIZE, with EXPANDED REELS and enhanced BONUS FEATURE!” Once in Power Hour mode, the countdown will show the time left in that mode. When the countdown reaches zero, a message will pop-up on the game grid that says, “Power Hour ended.”

STANDARD MODE:

At the start of the game, Weekend Windfall displays fifteen (15) block symbols in a 3x5 grid, a Prize Chart, a BUY button and a Countdown to Power Hour section. The top row of the full grid is blocked out and displays the top prize. In Standard Mode, the Top Prize of One Million Dollars (\$1,000,000) is not available to win.

By selecting the BUY button, the symbols will cascade down to fill the grid, display new symbols, and begin creating clusters. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the Prize Chart is won. A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

If the additional symbols added lead to a new winning cluster, the game continues until no winning clusters are present. Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the game ends and the total win is awarded to the player.

If the Power Hour timer reaches zero in the game, but the game round has not started, a pop-up will appear to show that the game mode has switched to Power Hour Mode. If the Power Hour timer reaches zero in the game after a ticket has been purchased, but the game round has not ended, a pop-up will appear and the game mode will switch to Power Hour Mode once that game round ends.

POWER HOUR MODE:

In Power Hour Mode, the game expands to a 4x5 (20 block symbols) grid of symbols and activates the Power Hour Top Prize. It is possible to win the top prize of \$1,000,000 at all price points in Power Hour Mode. Power Hour Mode is only available from Friday 5:00PM EST – Sunday 11:59PM EST.

By selecting the BUY button, the symbols in the grid will cascade down, display new symbols, and begin creating clusters. When three (3) or more identical symbols create a cluster which are connected in the grid by sharing a side (a “winning cluster”), a corresponding prize in the Prize Chart is won.

A winning cluster of symbols is removed from the grid and additional symbols cascade down to fill the grid. All winning clusters in the grid are removed before new symbols cascade down. These symbols can create new winning clusters, which award corresponding prizes, and are removed from the grid.

During play, a 2X2 or 3X3 BIG version of a regular game symbol may appear anywhere on the grid. The BIG symbols count as four (4) or nine (9) Game Symbols and can contribute to the creation of winning clusters. If the new symbols or BIG symbols that get added lead to a new winning cluster, the game will continue until no winning clusters are present and any Bonus Game awarded is completed.

Only the highest prize won on each winning cluster will be paid.

Once no winning clusters are present, the game ends and the total win is awarded to the player.

If the Power Hour timer reaches zero in the game, but the game round has not started, a pop-up will appear to show that the game mode has switched to Standard Mode.

If the Power Hour timer reaches zero in the game after a ticket has been purchased, but game round has not ended, a pop-up will appear and the game mode will switch to Standard Mode once the game round ends.

Free Games

When playing either Standard Mode or Power Hour Mode, reveal three (3) Free Games symbols on the grid to unlock ten (10) free plays of the Main game.

The Free Games end when all Free Games have been played and no new winning clusters remain on the grid.

At the end of the game, any winnings from the Main game and any Free Game winnings are displayed in the Wins panel.

STANDARD WILD

The Standard Wild Symbol substitutes for all symbols except the "FREE GAMES" symbol and "BONUS" symbol. For example, revealing a Standard Wild symbol directly above, below, or to the left or right of a cluster of 3 (three) Diamond symbols creates a 4 (four) Diamond symbol win. Standard Wild Symbols must be part of a winning pattern cluster in order to be applied.

MULTIPLIER WILD

These function the same as Standard Wilds except the win amount for any winning clusters they are part of are multiplied by the Multiplier amount. The Multiplier Wild is only applied to winning clusters it is part of, not any other wins during that play round. Multipliers of 2X, 3X, 5X, and 10X may be awarded.

Bonus Game

Standard Mode:

Reveal three (3) Bonus Game symbols to trigger the Bonus game. The game starts with a grid of fifteen (15) non-winning blocks and three (3) GOES on the counter.

Each time GO is pressed a new set of blocks drops onto the game board and the number of GOES reduces by one (1).

Blocks that enter the board can either be Non-winning Blocks (Black Diamonds) or Winning Blocks (Blue Chips).

If any Winning Blocks are revealed, they stick in that position on the game board and the number of GOES resets to three (3). Irrespective of the quantity of Winning Blocks revealed in a single GO, the GOES will always reset to three (3).

On the next GO, new blocks will enter the board filling the spaces vacated by dropping Non-winning Blocks from the previous GO. Winning Blocks from the previous GO remain on the board in the same position.

The game continues until the GOES counter gets to zero (0) (which occurs after three (3) drops in a row with no new Winning Blocks added in those drops) or when the entire board is filled with Winning Blocks.

Each time a Winning Block is revealed, a segment on the prize meter is filled.

Once the game has ended the player is awarded the one (1) prize shown as highlighted on the prize meter around the edge of the board. The player is awarded one (1) single highlighted prize, and not any other prizes below the highlighted prize on the prize meter.

Multipliers won in the base game prior to unlocking the Bonus Game are only applied to the base game wins. The Multiplier is not applied to any Bonus Game wins.

Power Hour Mode:

Reveal three (3) Bonus Game symbols to trigger the Bonus game. The game starts with a grid of fifteen (15) non-winning blocks and 3 GOES on the counter.

Each time GO is pressed a new set of blocks drops onto the game board and the number of GOES reduces by one (1).

Blocks that enter the board can either be Non-winning Blocks (Black Diamonds) or Winning Blocks (Blue Chips).

If any Winning Blocks are revealed, they stick in that position on the game board and the number of GOES resets to three (3). Irrespective of the quantity of Winning Blocks revealed in a single GO, the GOES will always reset to three (3).

On the next GO, new blocks will enter the board filling the spaces vacated by dropping Non-winning Blocks from the previous GO. Winning Blocks from the previous GO remain on the board in the same position.

The game continues until the GOES counter gets to zero (0) (which occurs after three (3) drops in a row with no new Winning Blocks added in those drops) or when the entire board is filled with Winning Blocks.

Each time a Winning Block is revealed, a segment on the prize meter is filled.

Once the game has ended the player is awarded the one (1) prize shown as highlighted on the prize meter around the edge of the board. The player is awarded one (1) single highlighted prize, and not any other prizes below the highlighted prize on the prize meter.

Multipliers won in the base game prior to unlocking the Bonus Game are only applied to the base game wins. The Multiplier is not applied to any Bonus Game wins.

Prize Chart

Multiply the ticket cost by the Multiplier(s) shown above for that symbol match to calculate your prize. Only the highest prize won will be paid.

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
