REVEAL I.D. NO. 3838
VERSION 1.6 - EFFECTIVE DATE: NOVEMBER 20, 2025

By purchasing any iLottery Instant Play Ticket and accessing any Instant Play Game, a player accepts and agrees to comply with these Game Rules and Regulations, the General Rules governing iLottery Instant Play games (hereinafter "Instant Play General Rules"), the iLottery Terms of Use, and all rules, terms and conditions, privacy policies, disclaimers and agreements on the Lottery Website at http://www.kylottery.com (collectively "the Rules").

If you do not agree, do not access or purchase any Game.

1. INSTANT PLAY TICKET PRICE

An Instant Play Ticket for this Instant Play Game may be purchased for **$0.50, $1.00, $2.00, $5.00, $10.00, $20.00, $30.00, or $50.00** unless authorized by the President at a discount for promotional purposes.

2. HOW TO PLAY

Western Wins is an Instant Play game that participates in several Progressive Jackpots, as set forth in the rules and regulations for each participating Progressive Jackpots Instant Play game. Not all Progressive Jackpot Instant Play games participate in the same Progressive Jackpot.

2.0% of the sales from each participating Progressive Jackpot Instant Play game will be rolled into the Progressive Jackpot with the other games participating in that Progressive Jackpot. 0.984% is contributed to the Gold Jackpot Prize, 0.210% is contributed to the Silver Jackpot Prize, and 0.060% is contributed to the Bronze Jackpot Prize. An additional 0.746% of each purchase is contributed to fund the starting Progressive Jackpot values.

	Base Jackpot Starts at:	**Sales Contribution Percentage:**
Jackpot 1 (Gold)	$100,000.00	0.984%
Jackpot 2 (Silver)	$5,000.00	0.210%
Jackpot 3 (Bronze)	$500.00	0.060%

The object of Western Wins is to collect clusters of three (3) or more matching, adjacent symbols ("winning clusters"), find both the Coin Collect symbol and one (1) or more Coin symbols, trigger Free Turns or a Bonus game, or win the corresponding GOLD, SILVER or BRONZE Progressive Jackpot amounts.

At the start of the game, Western Wins displays a 3X5 grid containing fifteen (15), a Jackpot row with three (3) Jackpot values labeled GOLD, SILVER, and BRONZE, a Winnings display below

the grid, an "i" button (which shows the Prize Table), and a "Play" button. Selecting the "i" button shows the prize value associated with collecting a cluster of three (3), four (4), five (5), six (6), seven (7), eight (8), or nine (9) of a Cluster symbol. Eight (8) different Cluster symbols are eligible to be collected in clusters.

To begin play, the player must select their price point before purchasing the game, and then the player must complete the purchase process set out in the iLottery Terms of Use. The outcome of the player's ticket is determined at the time of the ticket purchase.

When the player selects the PLAY button, the game automatically begins play by dropping in a new symbol for each spot on the grid. Six (6) different types of symbols may populate the grid:

- Cluster symbols, which are eligible to form clusters and include white, black, and chestnut mustangs, an eagle, and clubs, diamonds, hearts, and spades.
- A Wild symbol, which can take the place of any grid symbol to complete a cluster.
- Coin symbols, which each have an associated prize value.
- Coin Collect symbol, which must appear on the grid with one (1) or more Coin symbols to earn their prize value for the player.
- Free Games symbol – if three (3) Free Games symbols appear simultaneously on the grid, the player earns ten (10) free additional games of a slightly modified game grid.
- Bonus symbol, which will activate a guaranteed-win Bonus Game if three (3) Bonus symbols appear simultaneously on the grid.

If the grid contains a cluster of three (3) or more matching symbols, the game collects the clustered symbols, removes them from the grid, and awards the corresponding prize value, which is expressed as a multiple of the ticket price the player paid for the game. A cluster is defined as a group of at least three (3) grid cells in which each of the cells shares a side with another cell containing the same symbol. For example, three (3) of the same symbol directly next to each other horizontally or vertically would be considered a cluster; three (3) of the same symbol that are positioned diagonally from each other, that is, not sharing a side—would not be considered a cluster.

The Wild symbol can substitute for any Cluster symbol to help form a cluster. For example, if there are two (2) black mustang symbols next to each other and a Wild symbol immediately below one (1) black mustang symbol, the Wild symbol would act as a third (3rd) black mustang symbol to complete a cluster of three (3) black mustang symbols. The same Wild symbol can help to complete more than one (1) cluster at a time. Wild symbols can also enlarge a cluster; for example, if there's a cluster of four (4) black mustang symbols with a Wild symbol sharing a side with one (1) of the black mustang symbols, the Wild symbol will count as a fifth (5th) black mustang symbol and help to increase the cluster's prize value. Note that the Wild symbol cannot substitute for the Free Games or Bonus symbols.

After all symbol clusters on the grid have been collected and removed, new symbols drop down to replace them on the grid. If new clusters are formed, they are collected and removed, and the player earns the corresponding prize value. This process continues until no new clusters form. The prizes won from collected clusters accumulate in the Winnings display.

If the player reveals both the Coin Collect symbol and one (1) or more Coin symbols on the grid at the same time, each Coin symbol will reveal a prize value. The player will win the total of the prize values on the Coin symbol(s), which will be added to Winnings display.

If the player reveals three (3) Free Games symbols on the grid at the same time, the player will receive ten (10) additional Free Games.

If the player reveals three (3) Bonus symbols on the grid at the same time, the player will advance to the Bonus Game.

Free Games

The Free Games round displays a 3x5 game grid almost identical to the Main Game grid, a Jackpot display showing the three (3) Jackpots available, a Free Games Counter initially set to 9, and a Winnings display below the grid. The Free Games round begins automatically. As each new Free Game begins, the counter decrements by one (1).

Just as in the Main Game, if Cluster symbols appear in clusters of three (3) or more, the player wins the corresponding prize value in the Prize Chart for the cluster size and symbol. Wild, Coin, and Coin Collect symbols can appear in the Free Games round but Free Games and Bonus symbols cannot.

Once the ten (10) Free Games have finished, the player is returned to the Main Game and wins the total of all the prizes won during the ten (10) Free Games. The player is guaranteed to win a prize at least once during the ten (10) Free Games.

Bonus Game

The Bonus Game displays a 3x5 game grid with Coin symbols covering each grid spot and a Jackpot display showing the three (3) Jackpots available. To begin play, the player selects a Coin symbol, which reveals either a prize value or a Jackpot name (GOLD, SILVER, or BRONZE). The player continues to select Coin symbols until they reveal three (3) identical prize values or jackpot names. The player wins the prize or jackpot value that corresponds to the three (3) matching symbols, and the Bonus Game ends.

To complete play, the player must finish all turns in the Main Game and the Free Games or Bonus Game, if awarded. If the player has won a prize, a closing message appears in the game-play window indicating the total amount won, and the play ends.

Must be 18+ to TRY or BUY

3. PRIZE STRUCTURES AND ODDS

Duplicate prize amounts indicate multiple ways to win the same prize amount; different odds may apply to each way to win.
